

Carlsbad WMA WQIP Update – Consultation Panel
Agua Hedionda Lagoon SHELL and REC-1 Beneficial Uses
Thursday, September 03, 2020
9:30am - 11:30 am

To attend this Zoom Webinar meeting, please register at the following link prior to 11:00pm on September 2nd: https://zoom.us/webinar/register/WN_0S8AlmbeSViCRA7jg1gY5A

Background: The Carlsbad Watershed Management Area (WMA) Water Quality Improvement Plan (WQIP) is being updated to incorporate indicator bacteria data and information in the Agua Hedionda Hydrologic Area. Background information can be accessed on the Project Clean Water website.

<http://www.projectcleanwater.org/watersheds/carlsbad-wma/#plan>

Consultation Panel: The consultation panel is comprised of the following representatives.

Primary	Alternate
Ms. Mary Anne Viney – Environmental Community	Ms. Paige DeCino – Environmental Community
Mr. Steve Gruber – Development Community	Mr. Tory Walker – Development Community
Ms. Mireille Garcia – Regional Water Quality Control Board, San Diego	Ms. Erica Ryan – Regional Water Quality Control Board, San Diego

The consultation panel members are familiar with the CWMA, and the panel serves as a forum for public participation and input. The knowledge and expertise from the Panel members provide the Responsible Agencies valuable feedback during the decision-making process of finalizing the WQIP update.

Agenda:

1. Introductions, Logistics, Ground Rules, and Goals of the Meeting
2. WQIP Background and Update Request
3. Data Analysis and Prioritization
4. Proposed Approach
5. Consultation Panel Discussion

6. Public Comments

***A total of 30 minutes is provided so members of the public can provide comments on the WQIP Update information. If you desire to speak during public comment, click the “Raise Hand” icon found at the bottom of your screen during this item of the agenda. Speakers are limited to three (3) minutes each. When you are called to speak, your microphone will be unmuted by the meeting host.*

7. Next Steps
