B. Non-staffing Costs

5. Hydromodification Management Plan (HMP)

Multiple Methods Proposed and Considered

- **MOU Cost Share Proposal (45% 45% 10%)**
- **Developable Land (acreage)**
- **Developable Land (units)**
- **Developable Land (units, with multi-family dwellings and commercial based on acreage)**
- **Developable Land (parcels)**

Datasets Used for Analyses (most recently available)

- **Parcel Layer (SANDAG 2007)**
- **Developable Land Layer (SANDAG 2004)**
- **Municipal Layer (SANDAG 2005)**

B. Non-staffing Costs

5. Hydromodification Management Plan (HMP)

Methodology

- **"Parcels" clipped to "developable" lands layer and to the study area, County Water Authority boundary. The product is "developable parcels"**
- **"Developable parcels" were divided by "cities" and the number of developable parcels were tallied per jurisdiction**

B. Non-staffing Costs

Summary

Element	Cost
1. Regional Monitoring Program	\$ 1,486,528
2. Regional Outreach	\$ 125,000
3. CASQA Fees	\$ 20,000
4. Model SUSMP Update	\$ 50,000
5. Hydromodification Management Plan	\$ 600,000
Total	\$ 2,281,528

Proposed Actions

1. Adopt a regional shared costs budget in the amount of \$2,846,028 for FY 2007-08.
2. Divide all costs other than Hydromodification Management Plan development amongst the 21 Copermittees according a formula of 45% population, 45% urbanized land area, and 10% equal division.
3. Divide the cost of Hydromodification Management Plan development amongst the 21 Copermittees according the City of San Diego proposed formula of 90% developable parcels and 10% equal division.

Thank You
