Legislative and Regulatory Issues Technical Advisory Committee

2002 CLEAN WATER SUMMIT LEGISLATIVE TRACK

New action items identified during the group discussion at the 2002 Summit and confirmed by the TAC and Steering Committee:

1. Install a message board on the Legislative and Regulatory Issues TAC website homepage.
2. Host a water quality forum for legislative aides to explore opportunities for legislative changes.
3. Create a process for the region to establish a unified voice by collectively reviewing and commenting on legislation to further consistency in regulatory programs.
4. Facilitate input from the regulated community in the development and implementation of programs that affect them.
5. Analyze existing studies and expand on the *Study of Potential Funding Sources* to identify adequate and sustainable funding for the region.
